Don't just Survive...Enjoy & THRIVE!!

- ! Better QUALITY
- ! Better TASTE
- ! Better NUTRITION
- ! Better VARIETY
- ! Better VALUE
- ! Better REWARDS

Besides being nutritious, our food is simply delicious. In fact it is so good, your family may want to eat it every day instead of regular old grocery store food. (We suggest you eat only one pack now, and store the Bonus Free Packs for a later potential emergency). If you don't believe us, order a free sample food pack... or get the Tasting Party Pack for even more variety.

The packs are designed with simplicity in mind... just add water, heat, enjoy a wonderful meal...and THRIVE. Being happy with what you are eating is a big plus in any situation...emergency or otherwise.

What good is food storage if your family can't stomach it or won't eat it unless they are really starving. In an emergency, you might survive...but you won't like it. Why not Thrive...instead of just Survive?

FREE FOOD 2 GO.. Has several unique blends...specifically designed for both short term survival/storage (2-3 years) and long term survival/storage (10-20 years), and we are constantly coming up with more. Our staff & consultants have over 20 years experience in the business and are some of the leading consultants on Food Storage, Emergency Preparedness, and Survival. Our preparation, mixing, & packing facilities are FDA certified for handling real meat and eggs, not just TVP...(something most of our competitors cannot

(*Regular Retail is what our competitors usually sell an inferior quality product for.)
